

# Case Study \_ Mount St Joseph Milperra: Brother provides a reliable, affordable and fast high-end Monochrome Laser printing solution

## The customer

Founded in 1960, Mount St Joseph, Milperra (commonly MSJ) is an Catholic girls' (Year 7 to 12) secondary school with over 980 students, located in Milperra, New South Wales.

## The challenge

Mount St Joseph's required a reliable and fast monochrome laser printing solution, capable of printing a large quantity of confidential documents securely, like government contracts and reports, within their administration and executive team offices.

## The solution

Brother worked with Mount St Joseph to find a desktop print solution that could reliably meet their requirements and be easily implemented across the schools administrative and executive offices. With all requirements in mind, the HL-6180DW was selected from Brothers high-end range of monochrome laser printers.

## The product:

PRODUCT	MODEL NAME
Printer	HL-6180DW
Consumable	TN-3310, TN-3340, TN-3360, DR-3325

## The benefit

Brother was able to demonstrate a quality monochrome laser printing solutions that met all the requirements of reliability, ease of use, affordability, printing large volumes with super high-yield toners (up to 12,000 pages) and speed, without a bulky footprint to assist in maximising both office space within the administrative offices and the executive team's desk space.
