Redefining Healthcare

through Innovation and Technology

———

Brother Healthcare Solutions

Inspired by healthcare professionals, dedicated to patient outcomes

Healthcare providers today face the challenge of improving access to quality patient care while keeping costs down.

Brother offers a comprehensive suite of reliable machines and solutions. Empower your organisation with our devices that help you consolidate various functionalities for greater cost-savings and improved productivity. Our innovative solutions for patient confidentiality and workflow automation will help you maintain high standards of security while minimising costly human errors across your entire organisation.

Brother solutions for evolving healthcare needs

Optimise your print environment

Free up your capital to drive innovation and accelerate your healthcare administration processes for greater productivity. Brother solutions help ensure your print environment remains cost-efficient and in peak condition around the clock.

Print any requirement at any time
We've designed our machines to be fully customisable so that you can have different media available to you at all times. Simply add a paper tray to increase your paper capacity or a tower tray for higher volume printing or flexible media printing such as pathology paper in one tray, letterheads in another and prescription notes in another etc. Print any requirement at any time without the need for changing media.

Cerner and Meditech compatibility
We've worked with clinical software experts to ensure that our extensive range of printers and scanners meet the requirements set by healthcare ISV (Independent Software Vendors). Our machines are compatible with Meditech and have been certified to integrate with Oracle Cerner applications.

Mass Deployment Tool
This configuration interface helps healthcare IT administrators deploy a variety of device settings. Users can install and manage multiple devices locally or network connected machines efficiently without having to install any additional software.

CERNER CERTIFIED

Inspired by healthcare professionals, dedicated to patient outcomes

Digitise your paper-based records

Bring your healthcare environment forward into the digital age with Brother professional high-speed scanners and multi-function centres.

Designed with quick access shortcuts to help you digitise your patients notes or clinical forms into your electronic medical record or practice management system.

Custom User Interface (UI) Tool*
This tool will streamline your scanning workflow down to a single button press resulting in improved filing accuracy. This removes the guess work out of the scanning process so you can be confident that physical patient documents are scanned to computer files, electronic medical record systems or practice management systems efficiently and correctly.

TWAIN 2.0*
Seamlessly connect Brother scanning devices to practice management platforms like Medical Director or Genie Practice Management. Brother devices can also provide the capabilities and features you need for document management and archival compliance policies of your hospital or medical practice.

* Custom User Interface Tool and TWAIN 2.0 are not available on all devices

Maximise your print data security

Count on our enterprise-level security features to protect your print environment from threats such as unauthorised access to confidential patient information, or prescription tampering.

Secure Function Lock
Restrict authorised users or groups to specific functions of the printer such as colour or monochrome printing, setting page limits, scanning features and more.

Secure Printing
Share your Brother machines across departments while safeguarding patient confidentiality. Secure Print ensures that documents sent for print remain stored in the printer's memory until a password is entered on the printer. With Secure Print+, you can simply tap your NFC card to release the print job.

Internet Protocol Security (IPsec)
Brother machines come integrated with IPsec for robust, industry-standard encryption, making them ideal to secure patient sensitive information against interception and theft when they are sent for print.

EMR system-generated features
Print special characters for patient's prescriptions as well as in the variable print feature to help prevent erasure or modification.

Customisable micro-print font
Print a micro custom message on the patient's prescription border which becomes unreadable when copied, and that can be readily authenticated with a 5x loupe.

Variable print
Create a visible watermark of your patient's specific variable data (such as patient name, drug, and dosage) in repeating diagonal patterns across the prescription to prevent tampering.

Brother solutions for an optimised workflow

From registration and administration to patient diagnosis and medication processes, Brother offers a comprehensive suite of reliable and cost-effective printing, scanning and labelling solutions, fully optimised for your modern healthcare environment.

LABORATORY
Collect, test and analyse patient samples and provide timely results with labels capable of withstanding chemical and sterilisation environments

ADMINISTRATION
Manage patient administration and appointment scheduling

AMBULANCE
Transfer patients and provide critical paramedical care

BUILDING MANAGEMENT
Oversee storage and maintenance of building and medical assets

IT DEPARTMENT
Manage printing solutions and supplies across all hospital departments

PATIENT ADMISSIONS
Track and manage hospital's inpatient and outpatient services

PHARMACY
Dispense medication and print prescription instructions for medication packaging

MEDICAL RECORDS
Store, maintain and access patient records and history

BILLING
Process payments for services rendered and insurance claims

Discover your optimised workflow with Brother

Delve further into our comprehensive portfolio of recommended machines and solutions, specially suited to your healthcare operations.

Ambulance

Paramedics to print patient reports on the go

- Compact, robust and portable printer that doesn't get in the way of crucial medical equipment
- Vehicle mounting options available for ambulances - patient information printed on the go
- Print anywhere, anytime with convenient thermal printing - removing the disadvantages of ink supplies

Our recommendation:
Mobile Thermal Printer PJ-883

PJ-883

HL-L6200DW

Registration

Administration

High-volume printing of registration forms

- High-speed, high-volume printer with multiple connectivity options
- Large output capacity for easy document sorting
- Reduce paper refill frequency and allow for multiple media printing with 4 additional paper trays

Our recommendation: Monochrome Laser Printer HL-L6200DW

Optional accessories
- 2x LT-6500 or 3x LT-5500

Copying of Identification Card to register new patients

- Heavy-duty, robust all-in-one printer with wireless connectivity
- Cut patient waiting times with fast scan and print speeds

Our recommendations: Monochrome Laser Multi-Function Centres MFC-L6700DW, MFC-L5755DW

MFC-L6700DW

QL-820NWB

HL-L6200DW

Printing of custom patient ID labels

- Easily retrieve patient information with barcode labels
- Compatible with Hospital Information System

Our recommendation: Label Printer QL-820NWB

Printing of patient records

- Quiet, compact printer suitable for small spaces
- Speed up registration processes with fast print speeds
- Additional trays available for multiple media printing

Our recommendations: Monochrome Laser Printers HL-L6200DW, HL-L5100DN

Laboratory

Label printing for laboratory tubes and bottles
(blood tests, specimen samples)

- High-speed, professional label printers with multiple connectivity options
- QL-820NWB prints in black or red colour*
- Convenient drop-in rolls without need for ink or toner
- PT range provides durable, laminated labels perfect for chemical and sterilisation environments
- RJ range provide portable, robust option for pathology label printing

Our recommendations: Label Printers QL-1110NWB, QL-820NWB, PT-P950NW, RJ-2150

PT-P950NW

RJ-2150

TD-2125NWB

QL-1110NWB

QL-820NWB

*Requires DK-22251 continuous roll to print in black and red

Patient Admissions

Patient identification wristband printing

- Compact, portable label printer for on-the-go usage
- Optional Li-ion battery, WLAN or Bluetooth interface, and touch panel display
- Compatible with Hospital Information System
- Print up to 203dpi quality barcodes, with 1D and 2D barcodes supported

Our recommendation: Wristband Printer TD-2125NWB

MFC-L6700DW

QL-820NWB

Pharmacy

Label printing for medicine bags and bottles

- High-speed network label printer with wireless connectivity
- Flexible cutting capability
- Easy integration with existing pharmacy system

Our recommendation: Label Printer QL-820NWB

Printing and scanning of patient medication instructions

- Fast, quiet and compact MFC for printer sharing
- Flexible handling of various paper sizes and weights

**Our recommendations:
Monochrome Laser Multi-Function Centre
MFC-L6700DW, MFC-L5755DW**

Medical Records

Scanning of patient medical records for archiving

- Powerful scanner with advanced paper handling
- One-button scan and archive workflow available for new patient forms
- Large capacity Auto Document Feeder for effortless high-volume scanning

Our recommendations: Desktop Scanners ADS-3100, ADS-3300W, ADS-4700W, ADS-4900W

ADS-4900W

HL-L6200DW

Billing

Printing of receipts, discharge forms and insurance documents for inpatient discharge

- Robust, high-speed, compact printing that fits into your workspace
- Quick First Print Out Time (FPOT) for reduced patient waiting times
- Award-winning* reliability that you can count on

Our recommendation: Monochrome Laser Printer HL-L6200DW

IT Department

Customised solutions for your healthcare organisation's unique needs

- Brother experts work closely with you to modify features and integrate with software solutions to meet your organisation's needs
- Design pre-configured solutions that are fully optimised for your work environment

**Our recommendation:
Brother Special Solutions Customisation**

Accessible via Brother's Commercial Team

Real-time, fleet-wide management across the entire organisation

- Centrally manage your machines across all departments from one location
- Gain visibility over which machines are low on supplies or encountering errors

Our recommendation: BRAdmin

IT Department

PT-P950NW

Asset and Equipment Management

Printing asset labels to keep track of medical equipment and their last calibration

- Chemical, water and temperature resistant labels
- Multiple colours of TZe tapes for easy organisation and identification of equipment

Our recommendation: Label Printer PT-P950NW

Monochrome Laser Printers

Brother HL-L6200DW

Brother's HL-L6200DW monochrome laser printer will transform your business thanks to 46ppm print speeds, a combined paper input of 570 sheets, and exceptional paper handling options.

- Print
- Up to 5,000 pages recommended monthly print volume
- Up to 46ppm monochrome print
- USB, Wireless, Wired Network & Wi-Fi Direct
- **Paper input options:** 520 sheet tray (max 2), 250 sheet tray (max 3)

- **Consumables:**
  In-box Standard toner (up to 3,000 pages BK)
  TN-3470 - Super High-Yield toner (up to 12,000 pages BK)
  TN-3440 - High-Yield toner (up to 8,000 pages BK)
  TN-3420 - Standard toner (up to 3,000 pages BK)

CERNER CERTIFIED

Brother HL-L5200DW

Featuring fast print speeds of up to 40ppm and a 300 sheet paper input, Brother's HL-L5200DW monochrome laser printer will meet, then exceed, your expectations.

- Print
- Up to 3,500 pages recommended monthly print volume
- Up to 40ppm monochrome print
- USB, Wireless, Wired Network & Wi-Fi Direct
- **Paper input options:** 520 sheet tray (max 2), 250 sheet tray (max 2)

- **Consumables:**
  In-box toner (up to 2,000 pages BK)
  TN-3440 - High-Yield toner (up to 8,000 pages BK)
  TN-3420 - Standard toner (up to 3,000 pages BK)

CERNER CERTIFIED

Brother HL-L5100DN

Featuring 40ppm print speed and a combined paper input of 300 sheets with excellent paper handling options, the HL-L5100DN meets your challenges and ensures seamless workflow.

- Print
- Up to 3,500 pages recommended monthly print volume
- Up to 40ppm monochrome print
- USB & Wired Network
- **Paper input options:** 520 sheet tray (max 2), 250 sheet tray (max 2)

- **Consumables:**
  In-box toner (up to 700 pages BK)
  TN-3440 - High-Yield toner (up to 2,600 pages BK)
  TN-3420 - Standard toner (up to 1,200 pages BK)

CERNER CERTIFIED

Monochrome Laser MFCs

Brother MFC-L6700DW

With a 46ppm print speed and optional paper tray upgrades to serve larger workgroups, this device will make a sizeable difference to your business.

- Print / Scan / Copy / Fax
- Up to 5,000 pages recommended monthly print volume
- Up to 46ppm monochrome print
- Simplex scan up to 28ipm monochrome, 20ipm colour
- Single pass 2-sided (duplex) scan up to 56ipm monochrome, 34ipm colour
- Up to 70 sheet ADF
- USB, Wireless, Gigabit Wired Network & Wi-Fi Direct

- **Paper input options:** 520 sheet tray (max 2), 250 sheet tray (max 2)
- **Consumables:**
  In-box Standard toner (up to 3,000 pages BK)
  TN-3470 - Super High-Yield toner (up to 12,000 pages BK)
  TN-3440 - High-Yield toner (up to 8,000 pages BK)
  TN-3420 - Standard toner (up to 3,000 pages BK)

CERNER CERTIFIED

Brother MFC-L5755DW

With its fast print speeds and scan, copy, fax and mobile print capabilities, this device offers increased business efficiency like never before.

- Print / Scan / Copy / Fax
- Up to 3,500 pages recommended monthly print volume
- Up to 40ppm monochrome print
- Simplex scan up to 24ipm monochrome, 20ipm colour
- Single pass 2-sided (duplex) scan up to 48ipm monochrome, 34ipm colour
- Up to 50 sheet ADF
- USB, Wireless, Wired Network & Wi-Fi Direct

- **Paper input options:** 520 sheet tray (max 2), 250 sheet tray (max 2)
- **Consumables:**
  In-box toner (up to 2,000 pages BK)
  TN-3440 - High-Yield toner (up to 8,000 pages BK)
  TN-3420 - Standard toner (up to 3,000 pages BK)

Outstanding Printer for Mid-Size Workgroups

Colour Laser
Printers and MFCs

Brother MFC-L8900CDW

Featuring print speeds of up to 31ppm and the ability to configure 64 shortcuts that allow you to customise how you work, this device ensures your workflow is never interrupted.

- Print / Scan / Copy / Fax
- Up to 4,000 pages target monthly print volume
- Up to 31ppm monochrome & colour print
- Single pass 2-sided (duplex) scan up to 56ipm
- Customisable User Interface with 64 shortcuts
- Up to 70 sheet ADF
- USB, Wireless, Gigabit Wired Network & Wi-Fi Direct & NFC
- **Paper input options:** 4 x 520 sheet tower tray unit, 500 sheet tray (max 2), 250 sheet tray (max 3) or combination

- **Consumables**:
  In-box Standard toners (up to 3,000 pages BK, up to 1,800 pages C/M/Y)
  TN-446 – Super High-Yield toners (up to 6,500 pages C/M/Y/BK)
  TN-443 – High-Yield toners (up to 4,500 pages BK, up to 4,000 pages C/M/Y)
  TN-441 – Standard toners (up to 3,000 pages BK, up to 1,800 pages C/M/Y)

CERNER CERTIFIED

Brother MFC-L8690CDW

Featuring wireless connectivity and a 9.3cm touchscreen, this device is accurate and reliable, allowing you to operate with complete confidence.

- Print / Scan / Copy / Fax
- Up to 3,000 pages target monthly print volume
- Up to 31ppm monochrome & colour print
- Single pass 2-sided (duplex) scan up to 56ipm
- Customisable User Interface with 48 shortcuts
- Up to 50 sheet ADF
- USB, Wireless, Gigabit Wired Network & Wi-Fi Direct
- **Paper input options:** 250 sheet tray (max 3)

  TN-441 – Standard toners (up to 3,000 pages BK, up to 1,800 pages C/M/Y)

CERNER CERTIFIED

Labellers

Brother PT-P950NW

Professional PC labelling machine with advanced labelling functions.

- USB, Serial, Bluetooth, Wired Network & Wi-Fi
- Prints on durable TZe laminated tape, perfect for steriliser-safe labels
- 60mm/second print speed
- Prints 3.5, 6, 9, 12, 18, 24 and 36mm tape
- Optional touch panel with backlit LCD for standalone printing

- Supports over 15 popular 1D & 2D barcode protocols
- Includes AC adaptor with an optional Li-Ion battery
- Includes free P-Touch Editor label design software with barcode print capability
- Now available with BarTender drivers

Brother QL-1110NWB

Robust, super-fast label printer providing professional results in wide-format.

- AirPrint, USB, Bluetooth 2.1, Wired Network & Wi-Fi
- Fast print speed - 69 labels per minute
- Prints die cut labels or continuous rolls up to 102mm wide
- Automatic label cutter
- High-quality 300 DPI resolution printing ideal for logos and graphics

- Includes free P-Touch Editor label design software with barcode print capability
- Software Development Kits (SDKs) for Windows, iOS and Android

Brother QL-820NWB

Brother's unique range of professional label printers can print both black and red text.

- Super-fast print speed - 110 labels per minute
- Black and red text label - requires DK-22251 roll
- AirPrint, USB, Bluetooth 2.1, Wired Network & Wi-Fi
- Prints die cut labels or continuous rolls up to 62mm wide
- Automatic label cutter
- High-quality 300 x 600 DPI resolution printing ideal for logos and graphics

- Includes free P-Touch Editor label design software with barcode print capability
- Software Development Kits (SDKs) for Windows, iOS and Android
- Optional Li-Ion battery for printing way from power sources

Brother TD-2125N / TD-2125NWB

Bridge the gap between desktop and mobile printing with these compact, versatile and efficient label and wristband printers.

- Super-fast print speed of 152mm/second
- Prints up to 56mm wide RD labels
- Powerful Windows™ barcode label design print software application included
- Print from various operating systems/software using Brother ESC/P printer language (ZPL® emulation compatible)

- Build the printer to your requirements with various additional options
- Print wirelessly from smartphones, tablets and PCs with built-in Wi-Fi and Bluetooth options (TN-2125NWB only)
- Includes AC Adaptor

CERNER CERTIFIED

Mobile Printers

Brother PJ-883

Whether you're deploying a fleet of mobile printers for the first time, or upgrading your existing hardware, the PJ-883 is designed to minimise downtime and maximise convenience with the latest in direct thermal technology.

- Print speeds of up to 13.5ppm
- Wireless, Wi-Fi Direct, NFC and USB-C connectivity
- AirPrint, Mopria, iPrint&Scan and Brother Print Service capability
- High quality 300dpi print resolution
- Uses A4 cut sheet thermal paper or thermal continuous length rolls

- ESC/P, ZPL2 emulation and Brother command modes
- Backward compatibility with PJ-7 accessories
- Ideal for in-car solutions with optional car mount kit and multiple choices of power available
- Compatible with iOS 4.3 or later, Windows XP / Vista 7/8/10, Mac and Android operating systems

Brother PJ-862 / PJ-863

Print anywhere, anytime with the PJ-800 series. Equipped with the latest in direct thermal technology in a small footprint, this A4 mobile printing solution is designed to minimise downtime and maximise convenience.

- Print speeds of up to 13.5ppm
- Bluetooth, NFC and USB-C connectivity
- High quality print resolution - 300dpi (PJ-863) or 203dpi (PJ-862)
- Uses A4 cut sheet thermal paper or thermal continuous length rolls
- ESC/P, ZPL2 emulation and Brother command modes

- Backward compatibility with PJ-7 accessories
- Ideal for in-car solutions with optional car mount kit and multiple choices of power available
- Compatible with iOS 4.3 or later, Windows XP / Vista 7/8/10, Mac OS X (USB) and Android operating systems

Brother PJ-822 / PJ-823

Minimise downtime and maximise convenience with the latest in direct thermal technology. At just 26cm wide, experience a reliable, lightweight, A4 mobile solution that allows you to print anywhere, anytime.

- Print speeds of up to 13.5ppm
- USB-C connectivity
- High quality print resolution - 300dpi (PJ-823) or 203dpi (PJ-822)
- Uses A4 cut sheet thermal paper or thermal continuous length rolls
- ESC/P, ZPL2 emulation and Brother command modes

- Backward compatibility with PJ-7 accessories
- Ideal for in-car solutions with optional car mount kit and multiple choices of power available
- Compatible with iOS 4.3 or later, Windows XP / Vista 7/8/10, Mac OS X (USB) and Android operating systems

Brother RJ-2150

For a completely mobile label and receipt printing solution, the latest editions to the RJ family will help increase efficiency across a variety of vertical market applications.

- AirPrint, USB, Bluetooth 2.1 (MFi Certified) & Wi-Fi
- Super-fast print speed of 152mm/ sec
- Tough construction - IP54 certification and 2.5m drop protection
- Up to 1m print length

- LCD display
- ZPLII, CPCL and ESC/P emulation
- 54mm maximum receipt print width and 54mm maximum label print width

Scanners

Brother ADS-4900W / ADS-4700W

Designed to maximise your productivity, these high-performance, professional desktop document scanners makes uninterrupted, high-volume scanning in fast-paced environments effortless.

ADS-4900W

- Dual CIS Scan Technology
- Single pass 2-sided (duplex) scan up to 120ipm
- Up to 600 DPI optical resolution
- Up to 1200 DPI interpolated
- 100 sheet Automatic Document Feeder (ADF)
- USB 3.0, Dual band (2.4Ghz / 5Ghz) wireless and
- ethernet connectivity
- USB Host - Scan to USB drive
- 10.9cm colour LCD Touchscreen
- Bundled with Brother and 3rd party software with
- post-capture processing features

ADS-4700W

- Dual CIS Scan Technology
- Single pass 2-sided (duplex) scan up to 80ipm
- Up to 600 DPI optical resolution
- Up to 1200 DPI interpolated
- 80 sheet Automatic Document Feeder (ADF)
- USB 3.0, wireless or ethernet connectivity
- USB Host - Scan to USB drive
- 10.9cm colour LCD Touchscreen
- Bundled with Brother and 3rd party software with post-capture processing features

CERNER CERTIFIED

Brother ADS-3300W / ADS-3100

Combining high-functionality with a simple, compact design and low-cost footprint, this document scanner provides access to industry-recognised software and scanning tools as standard.

ADS-3300W

- Dual CIS Scan Technology
- Single pass 2-sided (duplex) scan up to 80ipm
- Up to 600 DPI optical resolution
- Up to 1200 DPI interpolated
- 60 sheet Automatic Document Feeder (ADF)
- USB 3.0, wireless or ethernet connectivity
- 7.1cm colour LCD Touchscreen
- Bundled with Brother and 3rd party software with post-capture processing features

ADS-3100

- Dual CIS Scan Technology
- Single pass 2-sided (duplex) scan up to 80ipm
- Up to 600 DPI optical resolution
- Up to 1200 DPI interpolated
- 60 sheet Automatic Document Feeder (ADF)
- USB 3.0 and USB Host - Scan to USB drive
- Bundled with Brother and 3rd party software with post-capture processing features
