Company

Lendlease is a leading international property and infrastructure group, with approximately 13,000 employees across operations in Australia, Asia, Europe and the Americas.

Headquartered in Sydney, Australia, their employees help to create places that leave a positive legacy with a focus on health and safety, our customers, innovation and sustainability.

A variety of visitor types for Lendlease

Sine helps with high volume contractor management for all contractors implementing quick check-in for cleaners and all major contractor types for Lendleases International Towers 1,2, and 3 at Barangaroo. Contractor check-in is managed by mobile and iPad across all 3 Towers. Deployment has occurred for Lendlease Global Corporate HQ and all Lendlease offices in Melbourne and Brisbane.

“The system is extremely well received by all our visitors and guests and the reporting is a valuable tool for end of month occupancy reporting.”

Lendlease Retail is utilising Sine across their construction fit out projects to help them identify contractors on site, approve tenant construction works and ensuring works are completed by inducted site personnel..
